Description

This driver provides audio enhancements for your computer.

Change Points

1. Fixed: After updating from Windows 8.0 to 8.1 using the Windows 8.1 upgrade release package, audio volume is low.

Installation Instructions

1. Save this file to a convenient location such as the Windows Desktop
2. **Save all work in progress and close open applications.**
3. From the Windows Desktop, run the downloaded file to start the installation.
 1. If a User Account Control or Open File message is displayed, press **Continue**.
 2. Press the **Start** button at the Toshiba Archive Extractor window.
 3. A **software license agreement** screen will be displayed.
 4. Click **Agree and Continue** at the Device driver installation window to start the installation
 5. An **Install options** screen will be displayed. Select **Express** then press **Next**.
 6. Press **Close** after installation has completed.
 7. Restart the computer.

Driver Version Verification

1. Open **Control Panel**.
2. Select **Programs**, then **Uninstall a program**.
3. Find **DTS Studio Sound Driver**.
4. Verify that the driver version is **1.1.47.0**.
